

BE SMART & STAY SAFE

Protect your privacy.

Use hard to guess passwords and never share your passwords or personal details.

Think before you post.

Remember that whatever you post online will stay there so be respectful and safe.

Know who you're talking to.

Only message people you know in real life. People online can lie about who they are.

Report it.

If something online feels wrong or makes you upset or uncomfortable, report it.

Reach out.

If you're unsure or upset, talk to a trusted adult like a parent or teacher.
